

About Your Listing

Creating A New Listing

After you join Illinois Drug Rehabs, adding your substance abuse treatment facility to our directory is simple. You simply log in using your newly created username and password, then click on the Home tab and select the region your treatment facility is located in. Then click "Add Entry" and proceed to enter information on your treatment facility. Your Drug Rehab Program will be listed in our directory within 24 hours. It's as simple as that! *Note- If you have more than one facility in Illinois, you simply add a new listing for each facility in the appropriate region under your Illinois Drug Rehabs account*

Editing An Existing Listing

Here at Illinois Drug Rehabs, we want to ensure we have the most up-to-date information about your facility. If information in a listing is incorrect, please contact us so that we may change it to help those in need to get in touch with their first choice facility more easily. Due to business security for you, we have a specific way in which we would like listing edit requests to be done.

First, please fill out our Contact Us form with your name and the rehabilitation center you represent. Tell us what information needs to be corrected. Lastly, be sure to include a telephone number for the facility. We will contact the clinic in order to verify the validity of the new information. This is a safety measure to ensure that your information is only added or modified by authorized representatives of your facility.

As soon as we make our verifications, we will change the information and get your listing on the right track for success!
